

DATASHEET

ALTAIR SLAVE BASE SOUNDER WITH WHITE VISUAL INDICATOR

AC-BSB-23W-01

The AC-BSB-23W-01 is an aesthetically pleasing low profile 32 tone audio/visual base sounder with combined white visual indicator, suitable for all devices in the Altair range of intelligent detectors. It offers class-leading acoustic and EN54-23 compliant visual performances with extremely low current consumption.

When used in conjunction with an associated intelligent detector the unit can be controlled via the cause and effect programming of a compatible control panel utilising the Argus digital protocol. The unit has integral DIP switches allowing the independent adjustment of both sounder Volume and Tone settings.

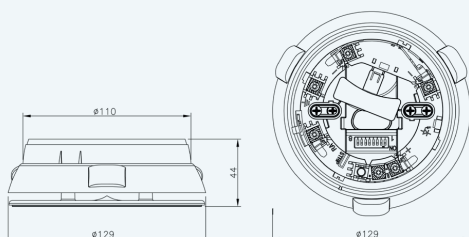

KEY FEATURES

- Compatible with standard remote activation
- Altair range compatible base
- Selectable tone/volumes via integral dip switch
- Easy installation and cabling
- 3rd party approved
- Available in sounder, sounder beacon with white light and sounder beacon with red light options
- Low current consumption
- Argus white ABS FR plastic

TECHNICAL SPECIFICATION

Acoustic output frequency range	440 - 2900 MHz
IP rating	21C
Max acoustic intensity	92.6dBA (tones 1-4 only)
Number of Tones	32
Dimensions	129 mm x 44 mm
Weight	210g
Operating Temperature	-10°C to +55°C
Max humidity (non condensing)	95% RH

TECHNICAL INFORMATION

STANDARDS & APPROVALS

- EN 54-3: Fire alarm devices - Sounders
- EN 54-23: Fire alarm devices - Visual alarm devices
