

DATASHEET

CONDUIT BASE HOUSING

UA-BCW-H37

The UA-BCW-H37 conduit base housing has been specially designed to assist the installer when mounting point detection devices into surface mounted installations. The unit has pre-formed conduit entry knockouts on four sides, allowing for simple and professional surface installation. The unit is compatible with the entire Argus wired and wireless point detection range.

KEY FEATURES

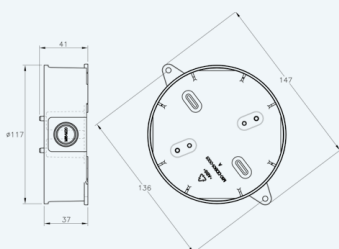

- M16 and M20 Pre cut conduit and gland entry points to sides and base
- External removable fixing lugs allow base to be mounted while maintaining the maximum protection from water ingress
- Base design compatible with all Argus wired and wireless detectors*
- Deep design directs condensation droplets from ceiling away from the detectors and provides additional protection against water and air movement
- Full screw-kit provided

TECHNICAL SPECIFICATION

Compatibility	All detectors in the current Argus wired and wireless range*
Dimensions	117mm x 37 mm
Weight	64g
Temperature Range (no icing)	-10°C to +55°C
Max. humidity (non condensing)	95% RH
Conduit entry size	4 no. x 16mm - 20mm

*Not suitable for the discontinued Sagittarius detectors
